From the CEO

Ready. Re-Set. Go!

When 2020 began, little did anyone know what a transformational period we would be in. In January of 2020, there were 147 residents at the Skilled Nursing Facility (Home) and 90 residents in the Personal Care Home (Suites). Home Care had taken off and was covering five Care Cottages and 43 home care clients. The Adult Day Center (Bridges) steadily cared for 20 consumers, and the Children's Center had 73 kids registered. The Rouse Estate had 225 Full-Time and 229 Part-Time/Per Diem employees.

Fast forward 18 months. The Home census dropped to 117. Suites residency is at 79. Home care services significantly decreased to about a quarter of the hours and two Care Cottages have been sold. After a period of shut-down, Bridges began to slowly rebuild, and the Children's Center had to close summer camp for the second year in a row. Like the rest of the world, the COVID pandemic has left us to evaluate what the future of Rouse looks like.

When I started at the Rouse Estate as the Chief Executive Officer, in June of 2021, it was evident that the pandemic had a traumatic effect on the organization. Individuals were delaying admissions or seeking alternatives to congregate care settings. Staffing shortages that existed prior to the pandemic were exacerbated with ongoing periods of quarantine or exits from the healthcare workforce. Leadership changes occurred, leaving staff to develop new relationships and trust. The impact was noticeable.

What was even more noticeable was the resilience. It was noticed in the kindness demonstrated by holding someone's hand when their family couldn't be there. It was noticed when maintenance took that extra moment to hang a resident's pictures just right. It was noticed by the smiles when residents could again participate in activities with their friends (which I experienced firsthand in my supporting role as "Kite #3" in the "Rouse has Talent" event). It was noticed in the strength and perseverance of staff when they talked about their personal stories.

While COVID will have left its mark on the Rouse, it is not our legacy. Ours is a legacy of compassion, caring, and service to others. And we are Ready. Ready to rely on our mission to guide us. Ready to refocus on our workplace vision and core values. Ready to re-shape our services in a world where technology and informatics support workforce development and quality of care. Ready to Re-Set our future. A future of hope. A future where the Henry Rouse legacy of service, education, advocacy and support is embodied daily in our talents and actions. Now, Let's Go!

Susan Tecochuk, Rouse Estate CEO

From the Board Chairman

Change. We all know it is inevitable. What we found out with the COVID pandemic is that change can be constant. Since March 2020, Rouse Estate residents, families, and staff have had to deal with changing situations, changing regulations, and changes in staffing at all levels.

The strength and stamina shown by Rouse Estate staff and the patience and understanding of our residents and their families has allowed everyone to do their very best over the last year and a half. Our gratitude to everyone who has stepped up to keep the Rouse thriving is sincere and ongoing.

Pat Evans, Chair, On Behalf of the Rouse Estate Board of Directors

Mission of the Rouse

Rouse exists to improve the quality of life for those who cannot fully care for themselves, regardless of age or economic status. We do this by continually expanding our knowledge, broadening our continuum of care and improving our services.

Vision of the Rouse

Rouse will be seen as the Regional Center of Excellence in providing a continuum of care for all generations. Rouse strives to develop and maintain real and lasting relationships with those for whom we care by getting to know them on a personal level. Our person-centered care will be delivered to individuals following their needs and wishes. We will consistently strive to exceed the expectations of our customers by continually evaluating and responding to industry needs. We will do this by providing a supportive, energized working environment that values employee contributions and growth.

History of the Rouse

Located on nearly 600 acres of the Brokenstraw Valley near Youngsville, Pennsylvania, the Rouse Estate stands as a tribute to one of the Commonwealth's little-known heroes of the oil boom, Henry Rouse. In 1861, at age 37, Henry Rouse had already achieved more success than other men twice his age. He was a

self-made man, having been a teacher, an entrepreneur, and a mercantile success. His random acts of kindness, civic spirit, leadership, and honesty earned him the respect of his community, and election to two terms in the state legislature. Only weeks after the world's first oil well was established in nearby Titusville, Henry Rouse found himself in the thick of the fledgling industry. On the evening of April 17, 1861, a breathless worker ran up to him, telling him to "come quickly" as they'd "hit a big one." According to the best accounts of the time, the "big one" was the world's first legitimate oil gusher. As oil spouted from the ground, Henry Rouse and the others stood by wondering how to control the phenomenon. Exactly what happened next remains one of history's unanswered questions. For reasons unknown, an explosion occurred, killing several men and leaving Henry Rouse with severe burns over most of his body. Somehow, in the last five hours of his life, Henry Rouse managed to dictate a detailed will in which he provided for the establishment of what is today known as the Rouse Estate. Within a few years of his death, land was purchased, a building was raised, and his dream of caring for others was on its way to being realized.

The Rouse Home

The Rouse Home is our skilled nursing and rehabilitation facility located on the campus of the Rouse Estate. Whether someone is seeking long-term care, skilled nursing care, or intensive rehabilitation to recover after a surgery, accident, cardiac event, or stroke, the Rouse Home's dedicated team offers a continuum of care focused on treating the individual.

At the Rouse Home, we pride ourselves on offering individuals of all ages and ailments a beautiful, clean, and safe place to call home. Our person-centered care gives nurture the spirit of aging residents by focusing on quality of care and quality of life. To accommodate individuals requiring Alzheimer's, dementia, or behavioral care, The Rouse Home maintains specialized households designed for comfort and minimum confusion.

Testimonial

Rita Bevevino has been a resident at the Rouse Home since February of 2018. When choosing a skilled nursing facility, we knew we wanted a place that felt more like a community, rather than just a facility. We had heard from others about their positive experiences at the Rouse Home and loved the variety of engaging activities that were available to the residents.

We love the staff at the Rouse Home! Everyone is fully engaged in the care and well-being of our Mom. Even if we have questions and they are not directed to the proper department, the staff is always willing to connect us to the department that can assist. Mom's unique requirements for her health care are always met with an open mind to find the best solution, even

with the challenging circumstances of the COVID-19 Pandemic. The variety of activities and the creative approach to finding ways with the COVID restrictions have really helped keep Mom's spirits up over the last 18 months. My parents are lifelong residents of Warren, and the common connections with residents and staff have kept the feeling of home for my family. We would 100% recommend and have recommended the Rouse Home to others, for all the reasons mentioned above, as well as just a general intention of care across all services. My Mom was at a highly rated suburban Philadelphia care facility before coming to the Rouse Home and the care and attention she receives at the Rouse is leaps and bounds ahead! The team is responsive and willing to create customized care for the changing challenges with Mom's needs. We appreciate the Rouse Home very much!

Jill Tonachio, Daughter of Rita Bevevino (Rouse Home Resident)

The Suites at Rouse

The Suites at Rouse is a Personal Care Home also located on the campus of the Rouse Estate. Personal care is defined as a special combination of housing, support services, individual care, and health care designed to meet specific resident needs. Personal care allows individuals who can no longer remain in their own home to maintain a lifestyle that promotes dignity, self-esteem, and independence.

The Suites at Rouse also offers a continuum of care through our Memory Care Community. This community is housed in the same facility and offers a fully secured and safe environment for those individuals needing additional support. The Suites at Rouse provides three balanced meals daily, supportive clinical care, medication administration and management, and emphasis on living as independently as possible.

Testimonial

It was the winter of 2014 when Jim and Demeyer Pearson went to live at the Rouse Suites, as living at home was no longer possible due to their physical and medical needs. Our family had done research and made visits to numerous senior living facilities and it was not a hard decision to select the Rouse as the premier place for our parents to call home based on the multi-service options for seniors, trained and skilled staff, feasibility, cleanliness and a well maintained living environment, quality and variety of meals, family friendly environment, safety, and a stellar reputation.

The team work concept that is practiced every day at the Suites guaranteed everyone was on the same page when it came to meeting our parents mental, physical, medical, and spiritual needs without compromise. The emphasis on their privacy, yet encouragement to participate in daily activities, helped them to maintain their dignity and self respect. Whenever a unique need was discovered, we were included in the plan to address the situation. There was an adjustment period, but within six months they stopped talking about their house and starting calling the Suites their home. We have good memories of frequent visits to the Suites and were able to witness Mom and Dad's love for each other and the respect they had for all the staff who made sure all of their needs were being met. The Suites has a wonderful, caring quality and we congratulate the Rouse for providing a quality senior and multi-service environment in the community. Henry Rouse would be very proud of his legacy. As the children and extended family of Jim and Demeyer, we will forever be grateful for the time they lived at the Rouse.

Home and Community Services

Home and Community-Based Services (HCBS) at the Rouse Estate includes care at Bridges of Rouse, Care Cottages, and Rouse Care at Home. Bridges, our Adult Day Center, supports adults in our community who need a caring, stimulating, and safe environment during daytime hours. The service is designed to meet the needs of adults who are chronically ill, physically disabled, cognitively impaired, or socially isolated. The general services provided at Bridges include social activities, meals, personal care and therapeutic activities. Rouse Care at Home provides trusted, compassionate in-residence care for seniors in our community living in our Care Cottages or in their homes.

Individualized care for each resident allows successful in-home care options to promote independent living. This care includes personal care assistance, emotional support, grocery shopping, meal preparation, and light housework.

Thomas Sekelsky has been a guest at Bridges of Rouse Adult Day Services since March of 2021. After a short rehabilitative stay at the Rouse Home due to a motor vehicle accident in January of 2021, we made the decision to have Tom attend Bridges a few days a week. He really enjoyed the activities at the Rouse Home during his stay, so we decided that attending Bridges would be a good alternative once he discharged home. I was unsure at first whether he would enjoy being around so many older people, but he came home and loved it. In fact, he just recently made the decision to go three days a week rather than two.

He really loves the staff and they are so attentive to his like and dislikes. If they are doing a spa day for the women or a craft he may not enjoy, they always find him an alternative activity. Going to Bridges gives him the opportunity to get out of the house and spend time with other people in safe environment. He enjoys the independence where he can take his power chair down the ramp, hop on the TAWC bus, and off he goes. It also gives me a break where I can run errands or accomplish tasks around the house and not focus on being a care taker for a few hours a day. On Fridays, they often have live music, which he really enjoys and, when they don't have live music, he will bring his laptop in and DJ for the other guests. He also loves the homemade lunches they provide and he will often bring home recipes for me to make. We would absolutely recommend Bridges to other families and, in fact, we have told several people to look into it and see if it would be beneficial for their loved ones. We can't say enough good things about Bridges and the services provided.

Sharon Sekelsky, Wife of Tom Sekelsky (Guest at Bridges of Rouse Adult Day Services).

Rouse Children's Center

The Rouse Children's Center is a Keystone STAR 4 (a quality rating system that promotes improvement in child care settings) facility located in downtown Youngsville that specializes in caring for children ages 12-months through 12-years old. Our educated staff offers children the opportunity to explore their world with developmentally appropriate activities that focus on physical, academic, emotional, and social needs. Our programming at each level provides planned, developmentally appropriate activities for gross motor and fine motor skills, math, science, social studies, language arts, and creative arts. We provide a Toddler classroom, Preschool classroom and Pre-K classroom. We also have a School Age classroom for summer and before and after school care.

Testimonial

Chloe and Elizabeth Benjamin are sisters who both attend the Rouse Children's Center. Elizabeth has attended the Center for five years and Chloe has attended the Center for three years.

We chose the Rouse Children's Center for many reasons! A few that stand out include the Keystone Star 4 Rating because I knew my children would be in a caring, nurturing, environment and be provided an environment for learning. The staff are friendly, kind, and caring. When my children first started attending the Center, I always felt welcome to call or stop in. I like knowing that my children are in good hands. We honestly feel that we never have to worry about our children while they are there. Every morning when I drop the kids off the energy is always so positive. My girls love their teachers! It makes us feel better knowing how much they look up to them. They also enjoy the many activities from arts and crafts to special guests that the Center is able to bring in. A highlight from some of their summer activities was seeing a bear that visited with the Pennsylvania Game Commission.

I would absolutely recommend the Children's Center. If you want your children to be in a welcoming, vibrant, safe, and educational space, this is the place for them! All the teachers will leave a lasting impression and positive impact on your children.

Light in the Forest Program

The Rouse recognizes our employees for going above and beyond the call of duty with our Light in the Forest Program. Our residents, clients, and their families, as well as other staff, can nominate an employee for the Light in the Forest. Each month, the nominees receive a special treat and a Shining Light in the Forest is selected and honored. We love letting our staff know we notice the awesome things they do!

January Shining Light in the Forest - Dave Wencil

Dave Wencil, Maintenance, went to the dumpster to get a specialized shoe for a resident that had accidentally been thrown away. He had to dig through the dumpster to find it, but knew how important it was to the resident.

February Shining Light in the Forest - Tammy Leichtenberger and Molly Lawson

The Department of Health came unannounced to the Rouse Home in January of 2020. Generally when this occurs there is a lot of fear and confusion among the staff. This time it was compounded by the fact that our Nursing Home Administrator and Director Nursing were at a training in Erie. Tammy and Molly, Rouse Home RNs, stepped up to the plate and managed the beginning of the process until they could get back to the facility. Tammy and Molly's willingness and ability to handle a difficult and stressful situation is to be commended.

March Shining Light in the Forest - Krystal Mummolo

Having just taken on the job of infection control, Krystal Mummolo, Rouse Home Infection Control Nurse, handled the outbreaks of illnesses within the Rouse Home and the COVID-19 pandemic very professionally. One can only imagine the level of stress. She has worked hard to keep our staff and residents safe and healthy.

March Shining Light in the Forest - Ginger Williams

Ginger Williams, Rouse Home Cook, went above her duties when we were short staffed due to a call off and another issue happened. She cooked the meals and then went to a hall to serve the meal. She also cleaned the kitchen and the hall that night.

**April Shining Light in the Forest -
Josalynn Wyman and Correy Kline**

Josalynn Wyman and Correy Kline, Direct Care Workers at the Suites at Rouse, really went above and beyond on their weekend shift. They delivered all the drinks to all the residents and helped deliver meals and other tasks. Thank You!

May Shining Light in the Forest - Dustin McClellan

Dustin McClellan, Rouse Home CNA, was nice enough to help on other halls one night when the Rouse Home was very busy. A hall he wasn't working was busy and he went over to help residents get to bed and checked on that hall throughout the night.

June Shining Light in the Forest - Rhonda Pyle

Rhonda Pyle, Rouse Home CNA, is a fantastic second shift aide. She puts in all the effort to make sure the residents' needs are met. She deserves some recognition for all the hard work she put in for so many days. Being short staffed is really hard, especially when you have to work a hall alone. Thank you for all the hard work!

July Shining Light in the Forest - Paula Harrington

Paula Harrington, Rouse Home Restorative Aide, went above and beyond for a resident. The resident had a 24 hour IV and it was difficult to wear shirts. Paula made special shirts with buttons on the sleeves so the resident was able to wear clothes rather than scrubs.

August Shining Light in the Forest - Tyler Craker

Tyler Craker, Rouse Home CNA, is exceptional at his job. He knows just how to enlighten every single resident he works with. He is a big ball of fun to work with and there is never a dull moment when he is around. He deserves to be recognized for all the smiles he spreads across the facility to residents and staff. He is dedicated to his job and the residents at the Rouse Home. Residents always ask for him when he isn't around and that really says something about how he works with them.

September Shining Light in the Forest - Kai Knox

Kai Knox, Rouse Home CNA, goes above and beyond for residents and staff. She came in on her day off and surprised a resident for their birthday and brought her dressed up dog to the resident's window. She makes sure all the staff are not struggling in their shifts and goes out of her way to make others happy.

October Shining Light in the Forest - Gabby Lent

Gabby Lent, Rouse Home CNA, deserves to be recognized for her hard work. She doesn't get enough credit for the amount of work she does. With little to no help, she always gets the job done before end of shift. The residents adore her and she is a thrill to have as a friend and co-worker!

November Shining Light in the Forest - Duane Niemeyer

Duane Niemeyer, Rouse Maintenance Special Projects Coordinator, was the eyes, ears, and right hand man during a five hour power outage at the Suites at Rouse in November of 2020. Via a phone call, he walked the team through where to gather extra flashlights, batteries, and extension cords needed to be able to more effectively and efficiently serve the residents during the crisis. He called several times throughout the five hours to check on the residents and staff to make sure everyone was safe. Several residents stated that evening and the next day how impressed and grateful they were with how the Suites handled such a delicate and unexpected situation with calm, gentle, professional care. Duane, thank you so much for the time, care, and compassion you provide to better serve and accommodate the residents' needs!

November Shining Light in the Forest - Traci Stoddard and Rebecca Brady

Traci and Rebecca, Rouse Home Life Enrichment Staff, went above and beyond to entertain residents on the 200 hall during a power outage. They even made PB and J sandwiches to help the dietary team. Awesome job and fantastic teamwork!

The Friends of Rouse

The Friends of Rouse was organized in 1989 as a volunteer auxiliary to the Rouse Home. Today, the group acts as an advocate for the Rouse Home, Suites at Rouse, Rouse Children's Center, and Rouse Home and Community Based Services. Its members assist in providing recreation, entertainment, and personal contact to enrich the lives of those served by the Rouse Estate.

All funds for Friends of Rouse activities are derived from memorials and honorariums, the sale of Friendship Tree Leaves, and a portion of the proceeds from the annual Friends of Rouse September Swing Golf Scramble. Prior to the COVID-19 Pandemic, funds were also raised via the annual Pie Sale and BBQ at Rouse SummerFest, an annual Summer Raffle, the May Rummage Sale, Dairy Queen Fundraisers, and proceeds from the Rouse Home Snack Bar, The Dogwood Room.

Past projects funded by the Friends of Rouse include:

- Maintaining the Dogwood Room Snack Bar and Aviary at the Rouse Home
- Supplementing each Facility's Activity Department Budget
- Yearly Special Events including SummerFest, Family Picnics, and Fireworks
- The Memorial Tree in the Rouse Home Lobby
- Indoor and Outdoor Furniture for Resident and Family Use

The Friends of Rouse annual membership drive is another source of funds for the organization. The membership is diverse and includes family, friends, volunteers, and employees of the Estate. The type and degree of involvement is entirely up to the individual members. While one member may be in a position to contribute financially rather than personally, another may help put together special events or regularly visit with residents.

For more information on membership and benefits, contact Reyd Martin, Rouse Estate Life Enrichment Coordinator, at 814-563-6475, or email rmartin@rouse.org. You can also download a membership form online at www.rouse.org.

My husband and I have been blessed with the Rouse Estates and its offerings. All four of our parents were lucky enough to be part of the Suites and the Rouse Home, and we were pleased with the staff, health care and facilities. We continue to volunteer with the Friends, as we want to help the Rouse continue to provide the many activities that we were able to share with our family, during their life at Rouse. - Penny and Gary Lester

Henry R. Rouse Legacy Foundation

The Henry R. Rouse Legacy Foundation is designed to honor individuals, families, and friends who have, or who will, address the long-range needs of Rouse through planned giving. Planned giving helps generous individuals make larger gifts than they could make from their income. Such gifts can take many forms including: Bequests through a Will, Bequests through a Personal Trust, or Charitable Life-Income Plans.

Too often, gifts go unrecognized because they come near the end of a donor's life. The Henry R. Rouse Legacy Foundation is our way of recognizing and thanking donors during their lifetime and beyond. For more information regarding planned giving to the Henry R. Rouse Legacy Foundation, please contact Susan Teconchuck, CEO at steconchuk@rouse.org

COVID-19

This year has been very difficult for the Rouse, due to the financial and emotional impact of the COVID-19 pandemic. We have been working hard to bring joy back to the Estate for the residents and staff as we continue our journey towards our new normal.

We are so appreciative of all the support that our staff and residents have received from the community. We received donations in the form of care packages for our staff from numerous organizations. In partnership with the Warren County Chamber of Business and Industry, local businesses provided catered lunches for our staff on Fridays in December of 2020 and January of 2021. Miss Millie's Proper Petals in Youngsville coordinated flower donations and deliveries to every one of our residents at the Rouse Home and Rouse Suites. Many resident families even delivered snack packages and goodies for both our residents and the staff. The out-pouring of love we have received is why we are so dedicated to serving the people of Warren County. Thank You!

SUPPORT THE ROUSE

As a 501(c)3 organization devoted to recognizing the vision and carrying out the vision of Henry Rouse, we rely on the generosity of the community to help us continue his legacy.

With your gift to the Rouse Estate, you are helping:

550

Seniors and Children
served annually

2000

Families served
annually

75

Children
attending
Day Care

who receive weekday
care, after school
care, and preschool
instruction

200

Residents
living in the
Rouse Home or Suites
Personal Care Home

30

Clients
receiving
care in their
homes

15

Clients who
attend
our Adult Day Center

**Your gift will make a difference in someone's life.
Thank You for your Support!**

Should you choose to show your support for Rouse through a monetary gift, donations can be mailed to Friends of Rouse, 701 Rouse Avenue. Youngsville, PA 1637 or made online at www.rouse.org
