

30. DESCRIBE ANY OTHER ASPECTS OF COMMUNAL DINING DURING REOPENING

Proper sanitation of all table and chairs and all infection control precautions/policy to be followed.

In each block below, describe the types of activities that will be planned at each step and the outings that will be planned at Step 3 (an all-inclusive list is not necessary). Include where they will be held and approximately how many residents will be involved. Describe how social distancing, hand hygiene, and universal masking will be ensured. Also include precautions that will be taken to prevent multiple touching of items such as game pieces.

31. DESCRIBE ACTIVITIES PLANNED FOR STEP 1 (FIVE OR LESS RESIDENTS UNEXPOSED TO COVID-19)

Activities will include but are not limited to active, spiritual, intellectual, reminisce, music, games, sensory, dementia focused, snack trolleys, art and service activities. Activities for 5 or less will be held in wing dining rooms, LEC, courtyard, pavilion, hallways, and lounges where 6 foot spacing is feasible between residents. Residents will be assisted if unable to independently don their mask as they leave their room to attend the program and clean their hands before going to the group. If a resident is out in the hallway without a mask, the activity staff will get their mask before having them join. Hand sanitizer and hand wipes are available throughout the building to use as needed. Activity supplies will be cleaned with a chemical approved by the Environmental Services Director in-between wings and any time a resident touches them. Activity supplies will be focused on single person/single use to the best of our ability and be sanitized in-between uses if a resident does have to share during the group. Examples of single use items: throw away bingo cards, dice in disposable cups where resident only touches their own disposable cup, coloring supplies given to the resident to keep in their room, single use word puzzle pages, disposable pages for coloring, puzzle mats for residents to work on a jigsaw independently with their name on the mat that is put away after use.

32. DESCRIBE ACTIVITIES PLANNED FOR STEP 2 (TEN OR LESS RESIDENT UNEXPOSED TO COVID-19)

The same measures will be taken as described in the activities planned for Step 1 except more residents will be able to enjoy the program at the same time. In addition, salon and chaplain visits will resume as a part of the daily activities schedule.

33. DESCRIBE ACTIVITIES PLANNED FOR STEP 3

The same measures will be taken as described in the activities planned for Step 2 and residents will be able to gather together from different wings in the LEC, courtyard, pavilion or other large spaces. We will start adding in cooking and baking groups also and will ensure hand washing, glove use, continued masking, and having residents only make food that they will consume and not share with others.

34. DESCRIBE OUTINGS PLANNED FOR STEP 3

Outings will focus on getting the residents out of the building while still avoiding contact with the public. The transportation bus will be sanitized in-between uses. Residents will wear masks for the duration of the trip unless eating or drinking. Hand sanitizer will be encouraged and readily available. Outings may include things like: fishing, going to an outdoor recreation area (Kinzua Dam, Chapman's Dam, local park, Audubon trails, etc.), picnics at a park (sanitization measures will be standard to clean any tables they eat at or chairs they might sit on and we will take disposable tablecloths), and leisure rides. Trips will include a maximum of 4 residents at a time so that *social distancing and infection control measures can be maintained*

In Step 2, non-essential personnel deemed necessary by the facility are allowed (in addition to those already permitted in Section 4 of *Interim Guidance for Skilled Nursing Facilities During COVID-19*). In Step 3, all non-essential personnel are allowed. Screening and additional precautions including social distancing, hand hygiene and universal masking are required for non-essential personnel.

ATTESTATION

58. ATTESTATION

I attest that the information provided in this Implementation Plan is an accurate representation of the facts and that this facility will adhere to the Implementation Plan as written. I further attest that the county in which this facility is located is in a Yellow or Green phase per the Governor's Reopening Plan. This Implementation Plan will be posted on our website (if one exists) or made available to all residents, families, advocates such as the Ombudsman and the Department upon request. This facility will progress to the next step of reopening only when the criterion is met as described in the *Interim Guidance for Skilled Nursing Facilities During COVID-19*. If at any point during reopening the facility fails to meet the criteria for reopening, I will ensure the facility ceases reopening immediately. Further, if at any point during reopening this facility is operating under a contingency staffing plan, I will ensure the facility ceases reopening immediately.
